ALERT!

Construction: La Loma Bridge

Pasadena Public Works Department will identify project timelines and alternate traffic routes for the duration of re-construction of the La Loma Bridge, expected to begin in April.

Please plan to join Councilman Steve Madison and City Staff for this important presentation:

Wednesday

March 18, 2015

La Casita Del Arroyo (177 S. Arroyo Blvd.)

6:30-7:30 pm

La Loma Bridge Closure

The La Loma Bridge, originally constructed in 1914, will undergo a seismic retrofit and rehabilitation. The bridge will be closed for approximately 18 months, with construction beginning the Spring of 2015 and the anticipated completion in the fall of 2016. The scope of the project involves replacement of the bridge deck; rehabilitation of the arches and spandrel columns; and strengthening the end piers. Arroyo trails will be open during construction however, at times and for safety reasons may be closed temporarily.

The estimated cost of the project is approximately \$16 million with funding consisting of \$13.3 million in federal funds and \$2.7 million city funds. The picture above is the expected look of the new completed bridge. Notice the light standards and railings which are consistent with the style of the original bridge.

During construction, traffic will be detoured to other bridges across the Arroyo Seco. Residents will be able to cross using the Colorado Boulevard Bridge to access areas north of La Loma Bridge, and will be able to use the San Rafael Bridge to access areas south of La Loma Bridge.

San Rafael Neighborhoods Association thanks the City's Public Works Department, City Engineers and the Pasadena Transportation Department for working with SRNA during the planning process.
