BOAT TOUR

**PORT OF LOS ANGELES
(Main Channel)
Sponsored by SRNA**

**Saturday
May 16, 2015
9 am to 3 pm**

Once a year the Port of Los Angeles celebrates World Trade Week with activities on the LA waterfront.

Free, hour-long, narrated boat tours offer visitors a waterside view of the massive operations supporting North America's leading seaport in container volume and cargo value, much of it planned for truck transport on the 710 and through Pasadena and neighboring foothill cities.

Details

Bus for 40 persons will depart Pasadena at 9:00 am from Avenue 64, in front of Church of the Angels

Parking will be available on the church driveway (outside edge only), lower lots at Hillside School/Parish Hall, and local streets

Bus will return to Church of the Angels approximately 3:00 pm

Light snacks and water will be on the bus

First-come, first booked!

To Reserve:

Send an e-mail to SRNA, info@srnapasadena.org with your full name and phone number for each person in your party.

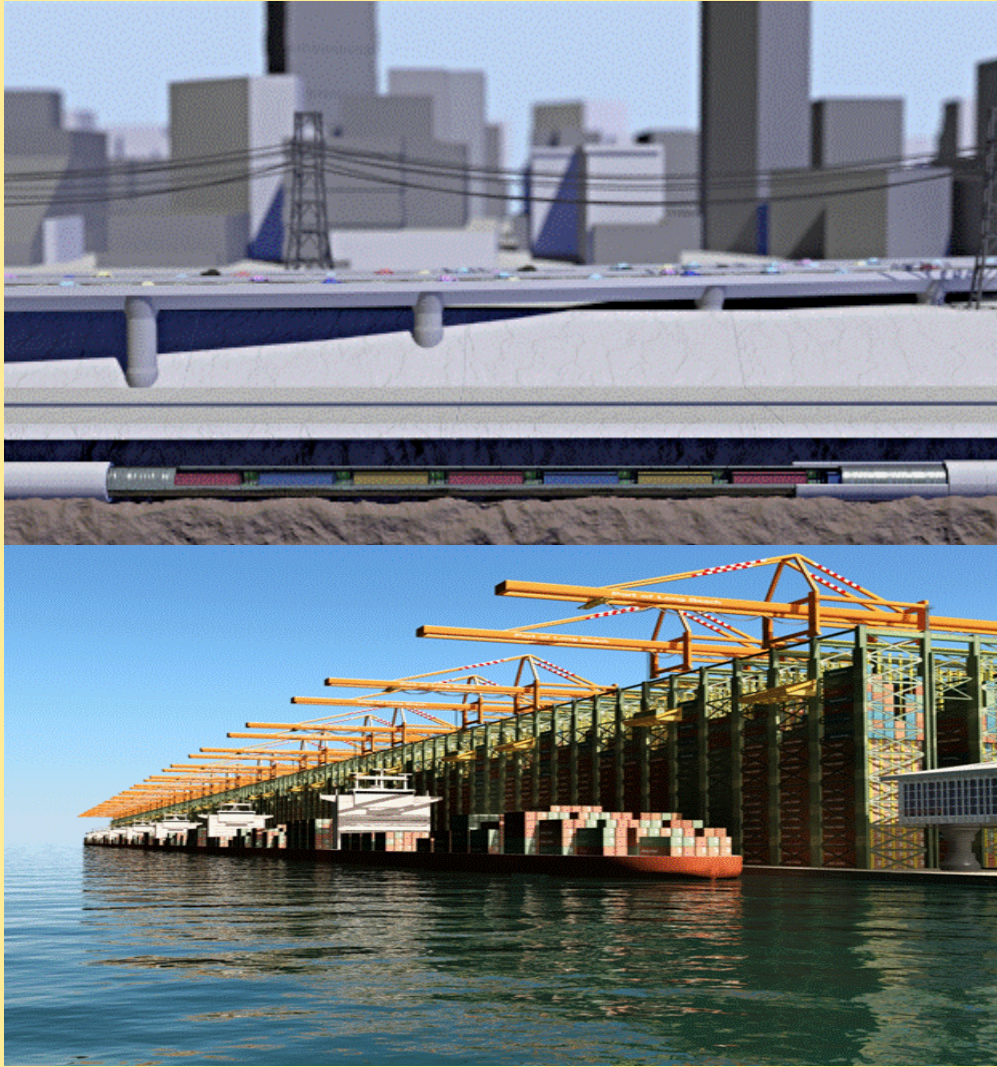

Only 40 seats - so reserve yours now

=====

**For alternative thinking on moving cargo
through Southern California:**

Fully Automated Underground

The above pictures of the GRID project were proposed last year. The GRID system is a 21st Century solution that would remove trucks from our freeways. GRID is the only environmentally superior alternative to conventional urban port and freeway growth in the works today, using entirely electric cargo transfer and transport modalities. The SuperDock™, seen above, will drastically shrink required port footprints, thus opening land for development or restoration. A

GRID freight pipeline would eliminate up to 70% of port truck traffic, freeing urban neighborhoods from pollution, noise, congestion, and stress, and diminishing or eliminating the perceived need for expensive and wasteful freeway projects.

For more information on GRID:

<http://s474091609.onlinehome.us/gridweb/why-grid/>

Interview with David Alba, who has presented GRID at many No-710 meetings:
